

PolarDam™ Air Dam Foam

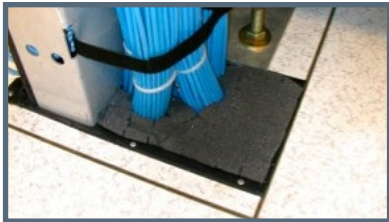

Seals all your data center air gaps better than brush grommets at a fraction of the cost

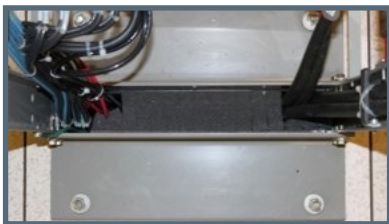

Typical cable cutouts

Obstructed cutouts

Oddly shaped cutouts

2-post racks

Blanking inside racks

Above, below and between racks

Say goodbye to expensive brush grommets. PolarDam™ is the best kept secret for sealing air gaps of all shapes and sizes. No tools, no measuring and just one part number. Imagine all the ways you could use PolarDam™.

Perforated every inch

A fraction of the cost of brush grommets

Saves Energy

PolarDam™ prevents hot and cold air leakage that reduces data center cooling efficiency.

Seals Gaps in Seconds

PolarDam™ is flexible foam that seals air gaps of any shape and size.

Beats Brush Grommets

PolarDam™ seals gaps better than expensive brush grommets at a fraction of the cost.

Fire-Safe and Long-Life

PolarDam™ is fire retardant, meets UL-94-HF-1 rating and is physically stable so it retains structural integrity over time.

No Tools, No Measuring

PolarDam™ is perforated every inch so you can tear the perfect size to fit any gap you're filling.

Just One Part Number

PolarDam™ comes in 24" x 24" sheets 2" tall. Each box contains six sheets, a total of 24 square feet. Order part number **PD24**.
